In the quest to advance electrification technology, should auto manufacturers go it alone or combine their expertise? 

TWO GLOBAL TESLA DEBUTS
Elon Musk has stunned the industry by not only unveiling a new electric truck, but also revealing the jaw-droppingly quick Roadster.

VOLKSWAGEN'S ROADMAP
Dr Herbert Diess lifts the lid on the German auto maker's extensive plans for its electrified vehicle range.

ARE EVs KILLING THE PLANET?
E&H Vehicle tackles some of the myths surrounding the environmental impact of electric and hybrid vehicle technology.

NEXT-GENERATION GENIUS
Will the new wave of electrified vehicle designers and powertrain engineers need a completely new set of automotive skills?

ELECTRIFYING DAIMLER
Jochen Hermann explains why the German auto maker is pursuing multiple propulsion technologies.

How rigorous testing of hydrogen fuel tanks ensures FCEVs aren't a spark away from disaster.

SOLID STATE OF AFFAIRS
Having promised a step-change for EV ranges, solid-state batteries are yet to find a route to widespread adoption.

ELECTRIFYING THE OIL INDUSTRY
Major petroleum companies are embracing electrification, investing heavily in charging technology and station infrastructure.

THE RETURN OF FISKER
E&H Vehicle speaks to Henrik Fisker about breakthrough battery technology, new business models and affordable EVs.

The EXCLUSIVE development story behind the new luxury electric hypercar.

Solid State of Affairs
Is hydrogen dangerous?

Power Struggle

The return of Fiskar

Electric & Hybrid Vehicle Technology International

January 2019

UKi Media & Events
First published in 1995, and now sent free of charge twice a year to over 20,000* key specifiers and decision-makers throughout the global automotive industry, Electric & Hybrid Vehicle Technology International is firmly established as the world’s leading international showcase for technology and innovation in electric, hybrid and fuel-cell vehicle development and manufacture.

- Hard copy mailout, by name and job title, to around 10,000 key OE automotive personnel: Europe 40%, North America 40%, Asia/Pacific 15%, Rest of World 5%.

- Full-colour interactive digital version also available online at www.electrichybridvehicletechnology.com

- Distribution is to OE vehicle design, development and production companies, relevant independent design, engineering and R&D facilities, and to principal Tier One and Tier Two suppliers.

- Additional distribution at key industry events, including Electric & Hybrid Vehicle Technology Expo, The Battery Show, eMove360°, EVS, Engine Expo, Advanced Automotive Battery Conference and LCV.
