RACE AGAINST TIME
As the UK moves its ICE ban even nearer, what needs to be done to make the switch to electric by 2030?

HYDROGEN – HYPE OR HOPE?
Fuel cell technology has been hailed as the future for alternative energy vehicles and recent investment is giving it a big boost.

BUILDING ELECTRIC ISLAND
The Volkswagen Group is embarking on an ambitious project to turn a Greek island into a fully-electric vehicle utopia.

CLASS ACT
Luxury automotive brands are embracing a new era through electrification, with Bentley and McLaren both unveiling groundbreaking hybrid models.

WHAT’S NEXT?
As the automotive industry seeks answers on how to recover from its biggest ever crisis, electrification could come to the rescue and usher in a defining era for alternative-energy transportation.

ON ANOTHER SCALE
Battery manufacturers are spending billions to build high-tech gigafactories to produce batteries at a mass level.

ARE YOU READY TO RACE?
Electrification is transforming motorsport with new race series arriving on the circuit for 2021 – we find out the tech behind each.

MAKING HISTORY
How the Voxan Wattman was engineered to become the world’s fastest electric motorcycle.

ULTRACAPACITORS
Could this breakthrough technology be set to replace batteries and unlock new performance potential for EVs?
First published in 1995, and now sent free of charge three times a year to over 20,000* key specifiers and decision-makers throughout the global automotive industry, Electric & Hybrid Vehicle Technology International is firmly established as the world’s leading international showcase for technology and innovation in electric, hybrid and fuel-cell vehicle design, development and manufacture.

- Hard copy mailout, by name and job title, to around 10,000 key OE automotive personnel: Europe 45%, North America 35%, Asia/Pacific 15%, Rest of World 5%.
- Full-colour interactive digital version also available online at www.electrichybridvehicletechnology.com
- Distribution is to OE vehicle design, development and production companies, relevant independent design, engineering and R&D facilities, and to principal Tier One and Tier Two suppliers.
- Additional distribution at key industry events, including Electric & Hybrid Vehicle Technology Expo, The Battery Show, EVS, eMove360°, Vehicle Electrification Expo, Advanced Automotive Battery Conference and LCV.
