The sourcing of electric vehicle battery materials urgently needs a more responsible and secure supply chain.

An eco-friendly concept sports car built on the principles of efficiency is aiming to redefine the meaning of performance.

The technologies behind the latest and greatest facilities and proving grounds designed to support the EV revolution.

We explore how Extreme E's radical electric motorsport series is highlighting climate change.

Discover how Extreme E's electric SUVs were built to tackle tough terrains and climate change.

The retraining and reskilling of engineers is critical as the automotive industry faces a shortage of talent.

The iconic motorcycle brand is building an electric bike with pure British innovation – we talk to those involved to find out more.

With one of the world's biggest car markets, India is primed for EV success but what obstacles stand in its way?

As the UK moves its ICE ban even nearer, what needs to be done to make the switch to electric by 2030?

Fuel cell technology has been hailed as the future for alternative energy vehicles and recent investment is giving it a big boost.

The Volkswagen Group is embarking on an ambitious project to turn a Greek island into a fully-electric vehicle utopia.

Luxury automotive brands are embracing a new era through electrification, with Bentley and McLaren both unveiling groundbreaking hybrid models.

The industry’s leading publication for over 25 years.

'Since advertising with Electric & Hybrid Vehicle Technology International, visitor numbers to our website have more than doubled – great job!'

Anna Balyasov, Marketing Communications Manager, VisIC Technologies
First published in 1995, and now sent free of charge three times a year to over 15,000* key specifiers and decision-makers throughout the global automotive industry, Electric & Hybrid Vehicle Technology International is firmly established as the world’s leading international showcase for technology and innovation in electric, hybrid and fuel-cell vehicle design, development and manufacture.

- Hard copy mailout, by name and job title, to around 10,000 key OE automotive personnel: Europe 45%, North America 35%, Asia/Pacific 15%, Rest of World 5%.
- Full-colour interactive digital version also available online at www.electrichybridvehicletechnology.com
- Distribution is to OE vehicle design, development and production companies, relevant independent design, engineering and R&D facilities, and to principal Tier One and Tier Two suppliers.
- Additional distribution at key industry events, including Electric & Hybrid Vehicle Technology Expo, The Battery Show, EVS, eMove360°, Vehicle Electrification Expo, Advanced Automotive Battery Conference and LCV.
